

# WT1010

1-Channel Soldering Station 95 W  
Product no.: WT1010N

## Benefits

- › Digital Soldering Station WT 1 120V, 60Hz (95W) with WTP90 and WSR200
- › WTP 90: The soldering iron for universal use with power response tips. Tip family XNT
- › OFF time, process window, Lock function, Offset
- › Compatible with a large selection of soldering pencils, pre-heat plates and solder baths
- › 2-in-1 WSR Safety Rest, flips between sponge and brass wool
- › Stackable Units, saving space on the workbench
- › RS232 protocol for Automation and Control

### Technical Data

|  |   |
|--|---|
| Dimensions L x W x H (mm)              | 149 x 138 x 101                           |
| Dimensions L x W x H (inches)          | 5.87 x 5.43 x 3.98                        |
| Weight (approx.) in kg                 | 1.9                                       |
| Voltage                                | 120 V                                     |
| Power                                  | 95 W                                      |
| Channels                               | 1   |
| Temperature range (depends on tool) °C | 100 - 450                                 |
| Temperature range (depends on tool) °F | 150 - 850                                 |
| Temperature accuracy °C                | ±9  |
| Temperature accuracy °F                | ±17                                       |
| Temperature stability °C               | ±2  |
| Temperature stability °F               | ±4  |
| Equipotential bonding socket           | Via 3,5 mm pawl socket on front of device |
| Display                                | Backlit LCD                               |
| Air consumption l/min                  | ---                                       |
| Operating pressure in bar/psi          | ---                                       |
| Capacity l/min                         | ---                                       |
| Vacuum                                 | ---                                       |
